

STRATEGIC CRITICAL METALS EXPLORATION & DEVELOPMENT IN SOUTHEASTERN MANITOBA

Grid controls a dominant land position in the highly prospective Bird River greenstone belt with a direct comparison to the “Ring of Fire”. Assays remaining pending at the 100%-owned Mayville project, and the Makwa project is funded through an agreement with Teck Resources.

HIGH POTENTIAL BELT-SCALE COPPER/NICKEL PROJECTS WITH SIGNIFICANT RESOURCE

- Grid consolidated the highly prospective Bird River greenstone belt in 2023
- Makwa nickel project funded through \$17 million option & joint venture agreement with Teck Resources
- Grid is drilling the north arm of the belt (its 100% owned Mayville copper/nickel project) with strong initial results
- Significant 46 MMt open pit resource (NI 43-101 compliant) in place at Mayville (north arm) and Makwa (south arm) deposits
- Focus in 2025 will be additional discovery and growth at both properties

UPSIDE OPTIONALITY WITH LITHIUM/CESIUM PROJECTS

- Bulk sample permit has been received at Donner which allows Grid to move quickly into full mine permitting once lithium prices recover
- High-grade cesium intersected at Falcon West including 3.3 m at 10.3% Cs₂O

The Bird River Greenstone Belt, which hosts the Makwa & Mayville projects, has been favourably compared to the Ring of Fire belt by virtue of geology and mineral endowment including nickel, copper, PGM, cobalt and chromite deposits.

Noront Resources, which controlled the majority of the Ring of Fire belt, was acquired in 2022 for C\$617 MM by Wyloo Metals.
